

PIP Project

(progress in partnership)

We are really excited to launch our PIP project. This year we have opened the project up to our Nursery children and we are keen for you to work with us to help your child achieve their age related goals by the end of the year.

Early years research tells us that parental involvement from an early age has a significant impact on a child's educational achievement through to adolescence and adulthood.

How does PIP work?

We will talk to you about what your child's next steps in learning are and how we are going to work together to help them to achieve them.

We will provide resources to use at home and lots of ideas for how you can support your child to progress in their learning. Some of these will be activities, but others will be simple things you can do through your everyday routines, like going to the shops, etc.

In the project you will be invited into nursery once a week for about an hour to work with your child and Julie.

We will give you regular updates on your child's progress and ask for your feedback about how things are going.

PIP activities

The programme will run for 6 weeks in a small group here at our centre.

Julie will share a book with you and your child in the group and then she will have some wonderful activities for you to take part in.

The sessions will be based on a story book theme each week.

The activities will be focussed on the areas of learning from the Early Years Foundation Stage Curriculum.
